

February 17, 2005

When we decided to landscape our property we had the good fortune to get in business with Gus Capparelli. Gus worked closely with us in developing a clear and striking plan, which truly transformed the property. An ivy-choked hill in front of the house became a satisfying mix of lawn, plants and grasses. Stone walls artfully defined the backyard, along with a new walk and steps. A line of trees provided a natural and effective separation from neighbors. From the initial inspired plan through every stage of the execution the work was performed at an extremely high level and completed within the estimated time. Gus brings an artist's eye and a professional discipline to every aspect of his work. I would recommend him without hesitation.
